Zebrite Post Top

This Zebrite Beacon is our top seller, installed on zebra crossings by more than thirty local authorities already. The combination of excellent optical performance, robust aluminium construction and easy, quick installation have made this product so popular.

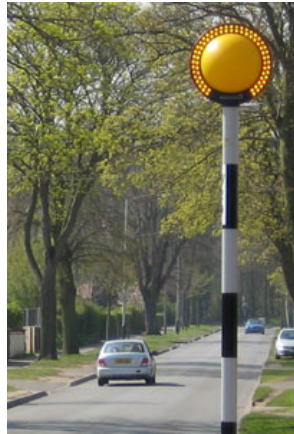

Able to be rolled out in days, it reduces scheme delivery times to an absolute minimum, giving an instant response to safety concerns.

Key features:

- **Improved conspicuity**
- **Reduced energy consumption**
- **Dimmable, to reduce light pollution and neighbour nuisance**
- **Maintenance free LED design**
- **Retrofittable to existing sites without excavation or post replacement**

For further information, or to arrange a free on-site demonstration at one of your zebra crossings please [contact us](#)
